

# Forewarned

## **Forewarned**

I told you to keep your distance  
I asked you to consider the consequences  
I urge you to take a different approach  
I offered an alternative solution  
I request your presence be sent elsewhere  
I indicated a direction for you to follow  
I incited the errors in your actions  
I thought I made myself clear

These actions are against the words of the wise  
These actions are provocative to the dangers you flirt with  
These actions are ignorant in the face of absolution  
These actions are beyond naive  
These actions knock on doors I'd rather have unanswered

Careful what you wish for  
The portions served are well endowed with ill intent.
