indulgent

I am provocative
I take charge. I lead

I am stealth personified
You will not see me coming whilst I get the job done

I am instrumental
Utilising all at my physical disposal to take you there

I am rock solid
The pulse of it all keeps me firm and salacious

I am gentle
Your fragility will be safe guarded in my commitment

I am the alpha
I cannot be undone. I refuse to be outworked

I am omega
I bring an end to all things. Your apex will be your reckoning

I am pleasant in all my efforts to please
