

Love & Digital

Love & Digital

Caught you on MySpace
Followed you to the ends of Facebook
Crept into the captions of your Instagram
And stalked the moments you shared on Snapchat

I fell face first in love with your mediums
I didn't know your name
I knew you by handle
By the source code you chose to dub yourself as

Still
I fell for you
I fell into your ocean of mystique
I fell out of my comfort zone
And now
I've decided to fall deeper, falling after you
