

I AM

# I AM

Without identity  
In the absence of personality  
Unaccompanied by character traits  
Lacking the shortcomings of limitation  
Uninterrupted by the ways of worldly constraints  
Neither this nor that  
In existence between this place and something beyond  
Defiance to accepted norms  
Right at home within the elements of divine principalities  
I am not what you think I am  
I am not what perception makes of me

I am
