Peasant's Dish

The Peasant's Dish

And so it is that this meal prepared by the hands of the paysan lay before me as an absolute representation of life and culture distilled into one dish.

Begotten by the labourers of old, vindicated by the occurrence of invention's necessity and inspired by the challenge of scarcity; we need not dull our senses based on the misjudgement of art brought to life by the minimality of used produce.

On the contrary, it is the modesty of the final result that brings to bear all vulnerability and honesty about peasantry; understanding that all things beautiful have in their arsenal the confidence of simplicity.

Let us eat this meal, taste its ancestry and be done.
