Effort Is Attractive

It lets me know you care
That it's not about incongruities
That there's something more
Laced with servitude's urgency

It shows me your nature
Way beyond skin deep
Far more complicated than simple pleasures
Without the need to hide behind adolescent playtime

It shows me your true intent
At a place where words cannot reach
Louder than the whispers of sweet nothings
That carry with it empty promises of moons and stars

It tells me that I'm worth it
With preference to the sexiness of honesty
And the attraction of efforts.
