

# CONSENTED KILLING

## **CONSENTED KILLING**

I didn't come here for you to like me  
I came to disrupt your life  
I came to piss you off before setting you free  
I came to make you intolerable of the status quo  
I came to open your eyes  
To make you see what you've been missing  
Everything that's right in front of you  
Is all a test  
An illusion of will  
I came to make you realise that you are not your problems  
Nor are you your tears  
I came to make you see  
I came to help you conquer  
Conquer yourself  
I came for the kill
